EUREKA LOGO  
 Surgery Recovery Connection

Your link between hospital and home, that's Eureka Community Hospital's Surgery Recovery Connection.

Fast montage of on-camera interviews moving across screen

DR FOGO  
 29:00-  
 "The goal is always to get them to return to a more independent setting."

LANCE REIMAN  
 35:14-35:18  
 "People here will be seen seven days a week, most days twice a day,  
 35:21-35:22  
 "for physical and occupational therapy."

NANCY ALLEN  
 24:59-25:05  
 "It's a well rounded, well balanced care that's provided by well trained staff."

Montage of hospital services

At Eureka, we believe care, comfort, and getting back to your independent life are what's important after orthopedic surgery.

Nurse with patient

That's why our Surgery Recovery Connection offers total quality care for your recovery.

Care that's covered by Medicare and begins as soon as you arrive.

Therapist working with patient

LANCE REIMAN:

35:25-35:32

"We usually see them within 24 hours upon arrival. We're able to get to them very quickly and then continue with that care immediately."

Fogo on camera

DR FOGO:

2:04-2:08

SUPER:

Dr. Shane Fogo

"This is a big difference for patients recovering in the hospital."

48:25-56:28

"Physicians are able to see them a little more frequently and also be involved in their care on a day to day basis."

2:31-2:42

"The services really get done quicker and the labs come back sooner, the test results will be back quicker, and that just helps aid us in a more prompt decision making process."

Physician entering charts

A process we've streamlined by connecting you to advantages like centralized services, advanced medical equipment, electronic medical records...

Physician and nurse  
consulting

ensuring decisions can be made quickly and efficiently by a team that's experienced in caring for patients with various medical histories.

Allen on camera

NANCY ALLEN  
25:21-25:36

SUPER:  
Nancy Allen,  
Director of Patient  
Services

"The nurses on our unit are trained to take care of patients with all types of healthcare concerns, especially chronic conditions, which makes them well skilled to care for people for extended orthopedic care because it's something they do every day in the hospital setting."

Fogo on camera

DR FOGO  
2:51-2:58

Nurse with patient

"We have a lot of patients who come here for recovery periods who have a lot of ongoing medical problems.

3:09-3:17

"Our hospital staff is really equipped and trained to deal with many of these issues. In fact we have a number of consultants who are able to come by,

3:20-3:26

"often once or twice a week, and provide some extra services if they're needed."

Physician with patient

At Surgery Recovery Connection, you'll experience orthopedic care like nowhere else, with 24-hour nursing care, regular visits from our physicians, and the individualized attention we recognize as vital to successful recovery. Like twice-daily therapy sessions...

Reiman on camera

SUPER:

Lance Reiman

Manager of Rehabilitation  
Services

LANCE REIMAN:

34:48-35:00

"If we're seeing you seven days a week, we're going to be able to keep that joint loose until it's more fully healed. Seven days a week also provides you more activity every day, whether it's getting out of bed, walking. Studies have shown that it increases your recovery..."

Patient being transported

That's why the facility links you to everything you need for recovery, with no delays or painful moves from facility to facility for tests and therapy.

Allen on camera

NANCY ALLEN

27:25-27:40

"One of the great things at Eureka in doing your extended care after orthopedic surgery is the fact that all of the ancillary services--and when I say that, I mean labs, x-ray, therapy--are all available in house 24 hours a day, seven days a week."

Lab/x-ray

That means a simple phone call brings staff right to your room for lab tests or a visit to x-ray or therapy.

Reiman on camera

LANCE REIMAN

32:49-32:56

Therapist with patient

"With us being on site, we're here available at all times; we open at 7, and we're here until 6.

32:11-33:21

"We're here to help with the nursing staff if they need help on any transfers. The doctors can get ahold of us regularly instead of having to call somebody in."

Montage

A network of highly trained  
doctors, nurses, therapists, and  
support staff works closely with  
you and your primary care  
physician,

Therapist

Physician

Lab/x-ray

Nurse

linking on-site therapy,  
doctors making daily rounds,  
easy access to hospital services,  
and 'round the clock nursing care...  
to get you back to your life.
