

"You've got one shot a year"

—ILLINOIS FARMER

**Independent**  
Professional Seed Association

You only get one chance to maximize yield each year, so make sure you find the partners to make it happen. When you see the new IPSA logo, you'll know you've found them—independent seed companies that give you the seeds for growth.

Because with independents, you're more than a number. You're working with locally owned businesses who know your business and have a vested interest in your community. They're keeping the market competitive by offering you exceptional service and the most advanced traits and genetics. So you can be confident they're working to help you make your shot count.

IPSA AND YOUR INDEPENDENT SEED COMPANIES.  
SEEDS FOR GROWTH.
