

**IN THE HEART OF THE WORLD'S  
AGRIBUSINESS CORRIDOR LIES  
AN INCREDIBLE BUSINESS  
OPPORTUNITY. BE PART OF  
THE PROGRESS!**

In Decatur, Illinois, Richland Community College envisions building on its educational core to create a world-class agribusiness community integrating education, research, and business.

Built on progress, the vision for this leading agribusiness center began with Progress City USA, the biannual home of the Farm Progress Show.

Invitation to the  
**Future**

**BE PART OF  
AGRIBUSINESS'  
NEW WORLD**

**Progress  
City  
USA**  
A Richland Community College Division

**FARM  
PROGRESS  
2007 SHOW**

In alternating years, Progress City USA and Richland Community College host the super bowl of agriculture in Decatur, Illinois. The Farm Progress Show showcases agribusiness' latest technology, tools, and services. Demonstrations, test plots, ride 'n drives, and more await visitors to the world's largest outdoor farm show.

# THE AGRIFUTURE IS NOW

Richland's world agribusiness center plans are well underway, featuring amenities to suit every segment of agriculture, from food to feed to fuel:

**Agro security policy and education center**—meeting site for Illinois Food Systems Policy Council, developing food safety strategies

**Agribusiness Highway** — global development community offering leading corporations permanent locales to conduct animal, plant, and environmental research and education

**International business education center** —opportunities include cross-cultural training for American agricultural businesspeople in the international marketplace

**Food technology center** —assets include a Culinary Arts Institute, opening in 2008 and offering both professional education & training and community programming

**Energy process technology center**—possibilities include education and research in areas from biodiesel and ethanol to diesel and bioenergy
