

## Why Tissue Culture?

*Tissue culture is unbeatable for its ability to produce plants that are healthier and more vigorous, resilient and disease-free than conventionally grown varieties.*

*Start your crops off right and experience the undeniable benefits of better performance and larger bloom size.*

*Bring the science of better plants into your nursery with quality tissue culture from Rancho Tissue Technologies.*

## Finding Our Plants

Starting your crops from the world's best tissue culture is easy. Simply contact us directly or order through our worldwide broker network. (To find a broker near you, visit [www.ranchotissue.com](http://www.ranchotissue.com).)

In addition, we offer confidential, professional custom contract growing and virus-eradication for your own proprietary varieties.

*Call today to grow your business with Rancho Tissue Technologies and the science of better plants!*

## Bringing the Science of Better Plants to Your Nursery

Discover true quality and performance with liners and micro cuttings from Rancho Tissue Technologies. Known worldwide for our vigorous, disease-free crops, we produce up to 4 million plants per year in our state-of-the-art environmentally controlled laboratory and greenhouse. Led by Heather May, our team of expert international researchers and scientists have been producing an exceptional range of plants for 23 years.

In our selection of more than 1,000 innovative varieties, you'll find:

- 🌿 Foliage plants
- 🌿 Cut flowers
- 🌿 Perennials
- 🌿 Succulents
- 🌿 Tropicals
- 🌿 Ornamental grasses
- 🌿 Other virus-indexed plants

## The Rancho Tissue Difference

### Multiplication of hard-to-propagate plants

Whatever the challenge, growers know Rancho Tissue has the science and skills to overcome, producing consistent, quality, clean stock to the highest possible standards.

### Development of new and improved cultivars

Rancho Tissue stands for innovation, and you'll see it in our extensive collection. We hand-select varieties for their superior performance and exciting characteristics.

### Virus- and disease-indexed mother stock

For the healthiest, most vigorous and resilient stock, the industry trusts Rancho Tissue Technologies. Here science and expertise come together to give you a higher level of success.

### Virus eradication

Using highly advanced techniques like heat treatment and meristeming, we eliminate potentially harmful viruses from plant material, ensuring the cleanest plant material possible.

### Custom contract growing

Growers and propagators all over the world trust Rancho Tissue Technologies for their proprietary plant material. From breeder to hobbyist, we'll multiply your plant material with the utmost discretion and quality.
